

Database Schema Design

Column Name	Data Type	Description
id	ObjectId	Unique identifier for each user
name	String	Full name of the user
phone	String	Phone number of the user (unique)
email	String	User email address
password	String	Encrypted password
gender	String	Gender (male / female / other)
address	Object	User's address details
role	String	Role (passenger / driver)
emergencyContacts	Array	List of emergency contacts
savedLocations	Array	User's saved locations
driverInfo	Object	Specific details and documents for driver
profilePhoto	String	URL of the user's profile photo
createdAt	Date	Account creation time
updatedAt	Date	Account last update time

Table 6.1: User Table Schema

Column Name	Data Type	Description
id	ObjectId	Unique identifier for each ride
passengerId	ObjectId	Reference to the passenger
driverId	ObjectId	Reference to the driver
status	String	Ride status (pending, accepted, completed, etc.)
pickupLocation	Object	Pickup coordinates and address
dropoffLocation	Object	Dropoff coordinates and address
fare	Object	Estimated and final fare
distance	Object	Distance value and text
duration	Object	Duration value and text

requestedAt	Date	Time when ride was requested
acceptedAt	Date	Time when driver accepted
startedAt	Date	Time when ride started
completedAt	Date	Time when ride completed
paymentMethod	String	Payment method (cash, upi, card, wallet)
paymentStatus	String	Status of the payment
rating	Object	Ratings and reviews by passenger/driver
isVoiceBooking	Boolean	Whether booking was done via voice
isScheduled	Boolean	Whether it is a scheduled ride
scheduledFor	Date	Time the ride is scheduled for

Table 6.2: Ride Table Schema

Column Name	Data Type	Description
id	ObjectId	Unique identifier for each earning record
driverId	ObjectId	Reference to the earning driver
rideId	ObjectId	Reference to the completed ride
amount	Number	Earning amount
date	Date	Date of the earning
breakdown	Object	Fare components (base, distance, time, etc.)
status	String	Status of earning (pending, completed, cancelled)

Table 6.3: Earning Table Schema
